

9.62 m²

M

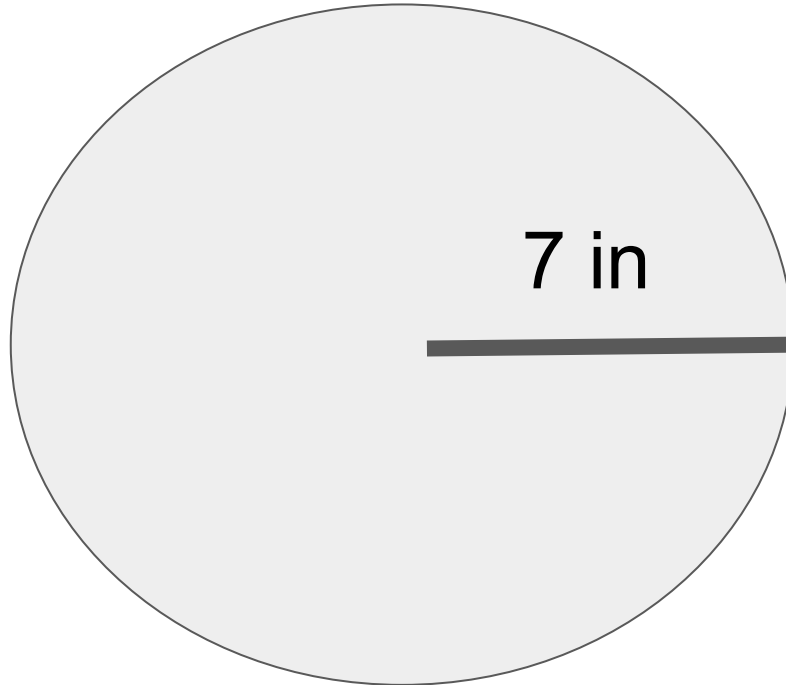

Find the area of the circle.

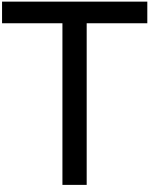

28.26 cm²

A

Find the circumference of the circle.

43.96 in

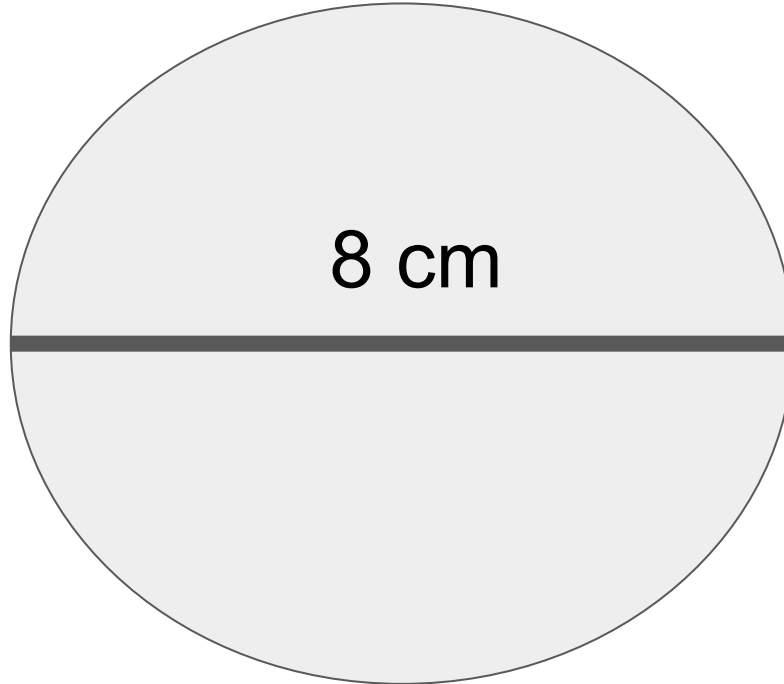

A circular linen tablecloth has a diameter of 70 inches. How many square inches of linen was required to make this tablecloth?

3846.5 in^2

H

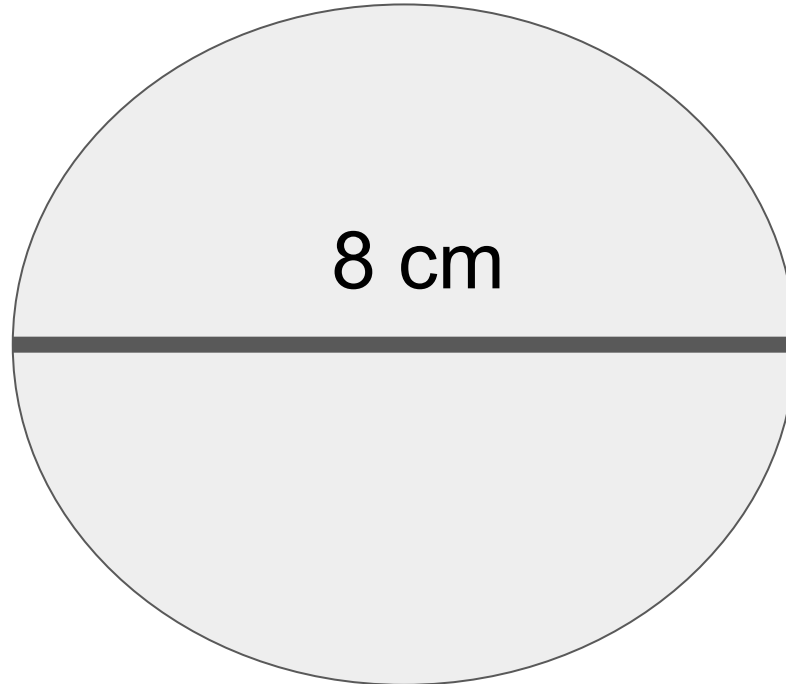

Find the circumference of the circle.

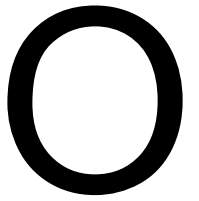

25.12 cm

R

Find the area of the circle.

50.24 cm²

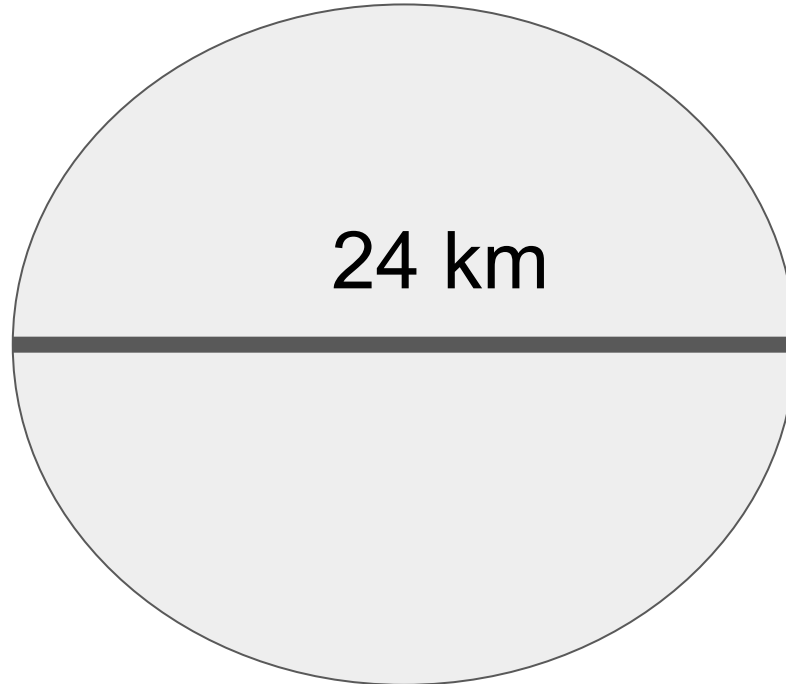

An asteroid hit the earth and created a huge round crater. Scientists measure the distance around the crater as 78.5 miles. What is the diameter of the crater?

C

25 miles

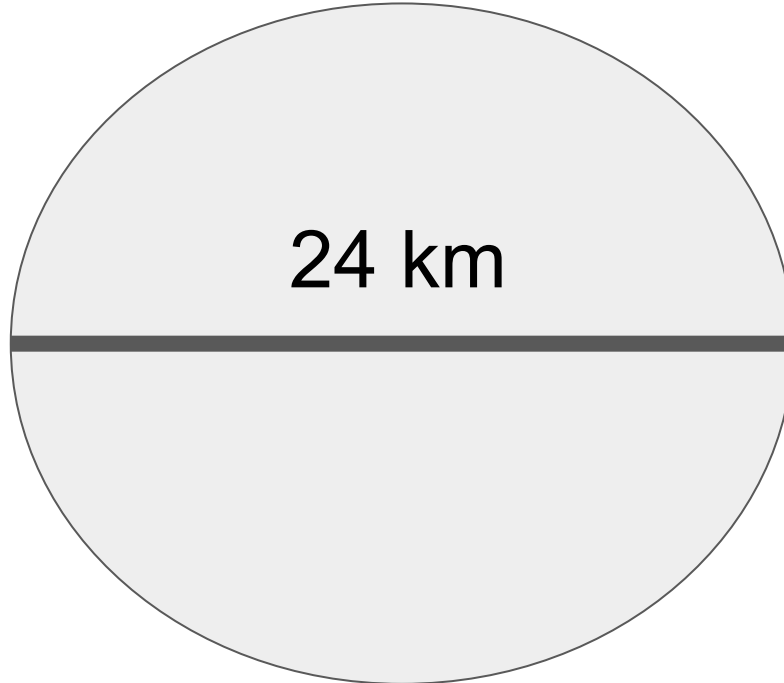

Find the area of the circle.

452.16 km^2

K

Find the circumference of the circle.

75.36 km

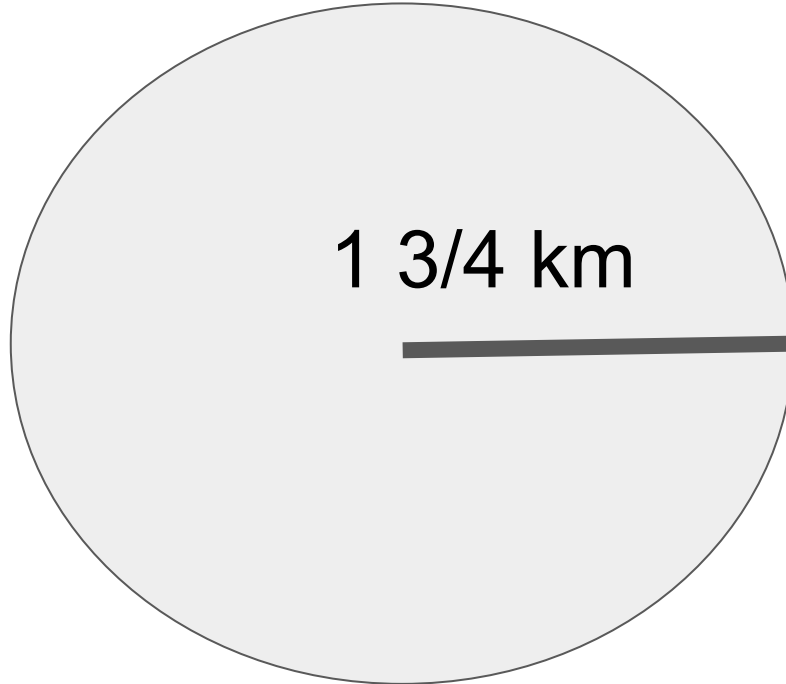

S

A spinner has 6 sectors, half of which are red and half of which are black. If the radius of the spinner is 3 inches, what is the area of the red sectors?

14.13 in^2

Z

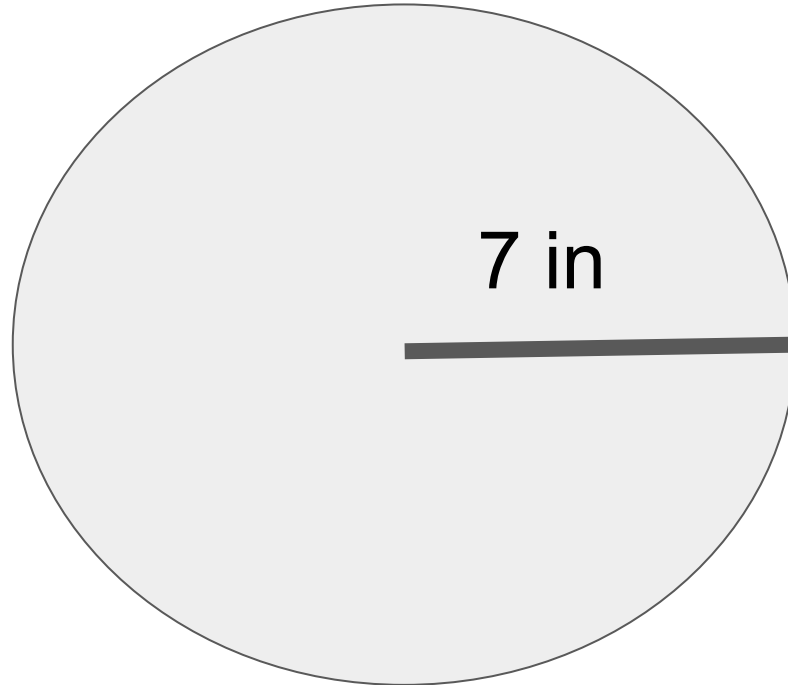

Find the circumference of the circle.

Y

10.99 m

Find the area of the circle.

153.86 in²

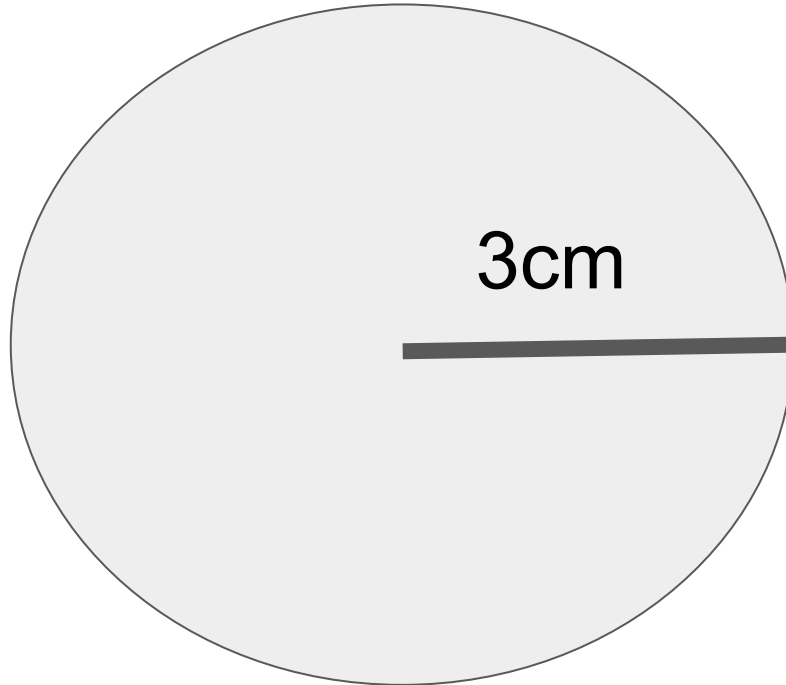

E

A sheep is tied to a post in the field. If the length of the rope is 45 feet, what is the area of the field in which the sheep can graze?

6358.5 ft^2

A

Find the circumference of the circle.

18.84 cm

H

Find the area of the circle.
